

2017 Construction Projects

City of Belmont | Public Works | www.belmont.gov

Last update 11-09-17

2017 Construction Projects

*In November 2016, Belmont voters approved the **Belmont Streets and City Services Measure (Measure I)**, a ½ cent general sales tax that will generate approximately \$1.3 million annually for local infrastructure for the next 30 years. The ½ cent sales tax will go into effect April 1, 2017.*

While City of Belmont has practiced prudent fiscal management over the years, Belmont's infrastructure and public safety needs require additional investments. Recent City audits indicate an additional \$135 million is needed to address Belmont's aging infrastructure needs. Belmont's streets, sidewalks, and alleys are degraded; the City's storm drain systems need to be upgraded for neighborhood protection and improved water quality; and Belmont needs to maintain 911 response times and public safety responses citywide.

Funds generated from the Belmont Streets and City Services Measure are for the sole purpose of addressing Belmont's infrastructure and other city services, and cannot be taken by the State. To further safeguard these funds, the Belmont Streets and City Services Measure will be reviewed by a citizen's advisory committee and will have yearly independent audits.

For more information on Measure I, visit www.belmont.gov/measure-I

2017 Construction Projects

Our Mission

Building and Maintaining the Foundation of Our City

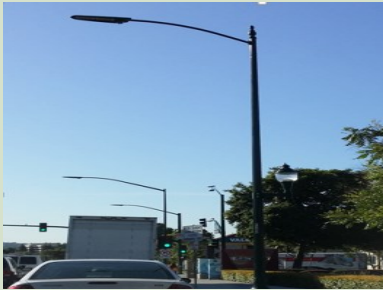

The Public Works professionals are dedicated to serving the community of Belmont through stewardship of its environment by effectively improving, operating, and maintaining its infrastructure. They are professional team of engineers, technicians, inspectors and maintenance crews who manage and build the community's vision through these important projects. They work hard to minimize disruption from construction and ensure the safety of the public traveling through work zones.

2017 City Construction Projects

Project details are subject to change. For updated information, please visit belmont.gov/projects.

Street Light Pole Replacement Project

1

The project will replace 40 deteriorated steel light poles and 79 wood street light poles throughout the City.
